CORRECTION

Correction: Quality of life profiles and its association with predictors amongst Chinese older adults in nursing homes: a latent profile analysis

Chunqin Liu[1,2†], Qing Luo[1†], Dongyi Luo[3], Ying Zhou[1*], Xue Feng[1], Zihan Wang[1], Jiajian Xiao[4], Qiulin Bi[5] and Graeme Drummond Smith[6]

After publication of this article [1], the authors reported that in this article the last sentence of the section 'Latent profile analysis for QoL' ('a, b, c showed the results of the Bonferroni post-hoc tests and there is a statistically significant between two. e.g. for physical 'a<b, c' means that class 1 has a mean score that is lower than class 2 and 3') should be placed as a table note below Table 2.
